### ABOUT US

Did you know that a recent study of Australian companies found that, on average they contribute less than 1% of their profits to charities?

At SavourLife® we decided to do more. About 50% more in fact!

SavourLife is a family-owned, Australian company inspired by a passion for dogs and a desire to make a difference. We make premium treats for dogs and donate 50% of our profits to pet rescue organisations, helping them save and re-home abandoned dogs.

### WHO WE HELP

Every year an estimated 400,000 animals are abandoned across Australia. Some say as many as 180,000 are euthanised. We are determined to change that. Through our partner pet rescue organisations we hope to educate people on better choices and defend those dogs that have already been abandoned; finding them permanent happier homes. Our official partners are smaller, registered, not-for-profit rescue organisations. They are currently Sydney Dogs & Cats Home, BFR and Pets Haven. We also regularly donate food and money to many other small rescues across the country.
