Charlie

CHIHUAHUA Red Hill, QLD

Dear sweet Charlie. He's had a very hard time and all he wants is stability, love, peace and calm. He desperately wants to be loved. Three years ago he found himself at RSPCA, where the shelter staff said he was very shut down, frozen in fear and wasn't coping.

They asked us we could take him into care.

Of course we took him and spent a long time rehabilitating him and caring for him and helping him to be more confident.

We found a home for him with a family who promised to care for him and love him and continue the training and help we had started.

All of our adoptions come with a contract whereby you can return the dog to us at anytime during their life, anytime. We stay in touch and we ask how the dog is progressing, through email and text...
